QuickLifeNow Task Management — Master End-to-End Operational Flowchart

Complete lifecycle: Authentication ➔ 1-to-Many Creation ➔ Multi-Level Delegation ➔ Clarification Loop ➔ Review & Revision ➔ Final Sign-off

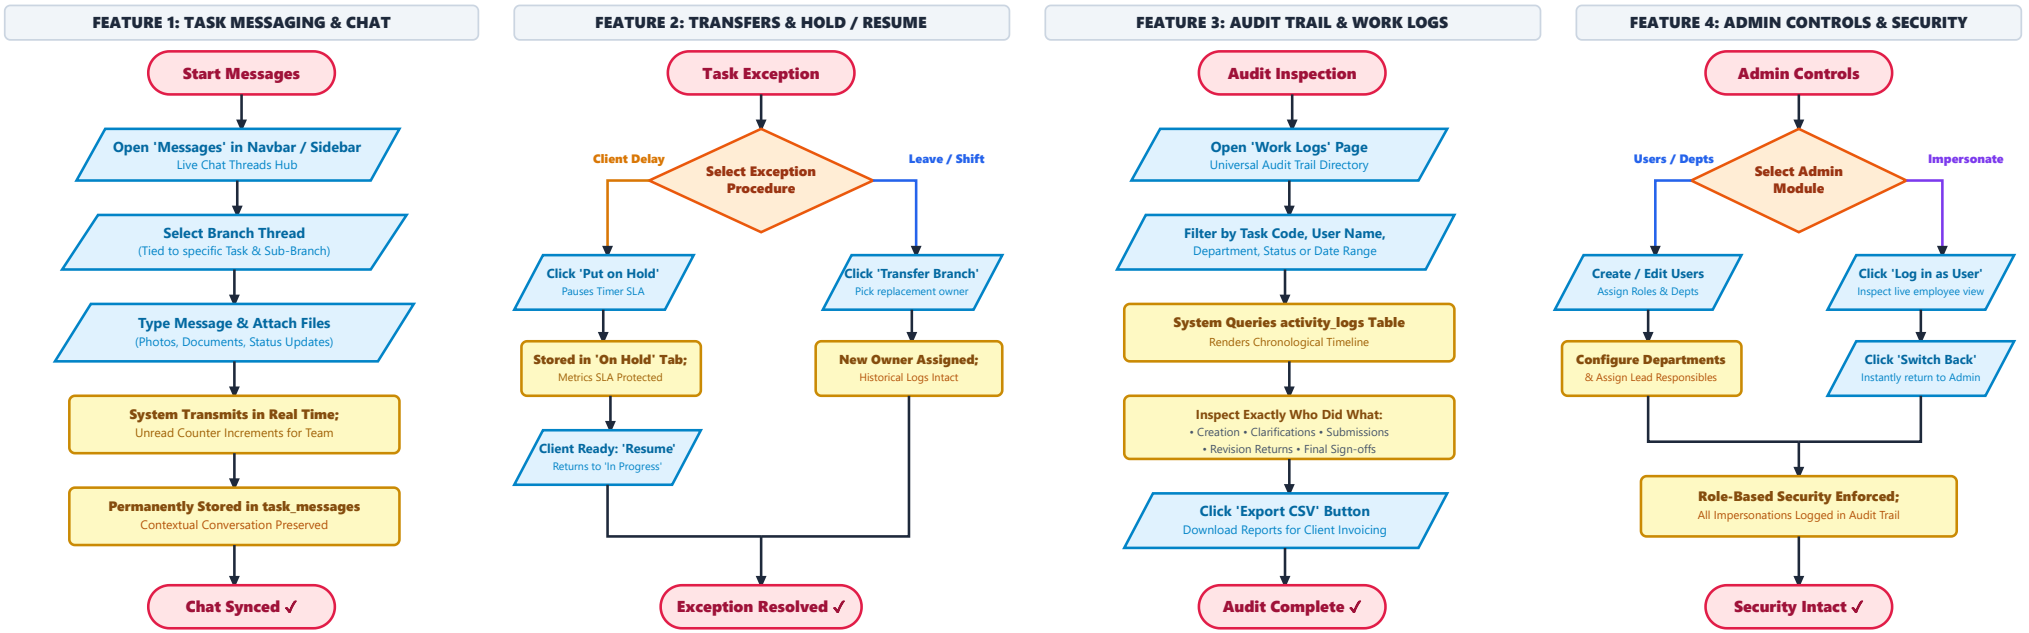

Start / Terminal | User Action / Input | System Process | Decision Condition | Junction Point

QuickLifeNow Task Management — Operations, Collaboration & Administration Flowchart

Complete workflows: Direct Task Messaging, Branch Transfers, Hold / Resume, Task Cancellation, Audit Logs & Admin Controls

Start / Terminal | User Action / Input | System Process | Decision Condition | Junction Point

Task State Machine & Status Lifecycle

Status State	Trigger / Action	System Behavior & Visibility
New / Pending	Creator clicks 'Create Task'	Dispatches alerts, generates sub-branches, enters Assignee queue.
In Progress	Assignee opens task & begins work	Active timer running; assignee prepares deliverables.
Waiting Details	Assignee clicks 'Request Details'	Assignee timer pauses; Assigner receives urgent question notification.
Under Review	Assignee clicks 'Submit for Review'	Leaves Assignee queue; enters Reviewer's 'Review Queue' page.
Needs Correction	Reviewer clicks 'Return for Revision'	Returned to Assignee with mandatory correction notes; rework required.
Approved	Reviewer clicks 'Approve Submission'	Branch marked approved; waits for sibling branches to complete.
On Hold	User clicks 'Put on Hold' (client delay)	SLA frozen to protect employee metrics; stored in 'On Hold' tab.
Completed	Creator clicks 'Final Sign-Off'	100% complete; milestone locked and archived permanently in Work Logs.

6-Level Delegation Hierarchy & Isolation

Level	Branch Code	Ownership	Visibility Scope
Level 1	`T-0010`	Original Creator	Global visibility across all child branches.
Level 2	`QL-0010.1`	Lead Assignee A	Sees only Branch .1 and its children (.1.1).
Level 2 (Parallel)	`QL-0010.2`	Lead Assignee B	Strictly isolated from Lead A; sees only Branch .2.
Level 3	`QL-0010.1.1`	Senior Specialist	Delegated sub-task; reports up to Lead A.
Level 4	`QL-0010.1.1.1`	Junior Team Member	Sub-component work; reports up to Senior.
Levels 5 & 6	`...1.1.1.1.1`	Deep Specialists	Deep leaf nodes; complete horizontal privacy.

Horizontal Isolation Rule: An employee assigned to `QL-0010.1` has ZERO access to `QL-0010.2`. Only the parent who delegated the task and the original creator can see the child branches.

Role Permissions & Access Matrix

Role	Task Creation	Delegation	Review / Sign-Off	Admin / Impersonate
Super Admin	Full (All Depts)	Full (Up to L6)	Final Sign-Off Any	Full Control + Impersonate
Admin	Full (All Depts)	Full (Up to L6)	Final Sign-Off Any	Manage Users & Depts
Sub-Admin / Lead	Own Department	Delegate to Team	Review Team Work	Department-Only View
Employee	Can Request Task	Delegate if Lead	Self Submit Work	No Admin Access

Flowchart Symbology & User Guide

Symbol	Color & Shape	Usage Meaning
Terminal	Soft Pink Pill	Indicates where a workflow starts, ends, or reaches final completion.
User Action / Input	Sky Blue Parallelogram	A human user action (clicking a button, entering form text, uploading files).
System Process	Warm Yellow Rectangle	An automated server execution (creating records, token checks, firing alerts).
Decision Condition	Soft Peach Diamond	A branch point asking a question with labeled **Yes** (green) or **No** (red) paths.
Junction Point	⊗ Circled Cross	Where orthogonal flow lines cleanly transition into the next stage or loop.
